

## **Log Processor Job Description**

We are seeking a dedicated, skilled, and self-motivated Log Processor to join our team. The ideal candidate will be responsible for operating heavy equipment and performing various tasks related to tree care and maintenance. This role requires a strong understanding of mechanical operations and the ability to handle heavy lifting. If you have a passion for outdoor work and possess the necessary skills, we encourage you to apply.

### **Responsibilities**

- Operator will run a John Deere 1270 G Wheel Harvester to cut and delimb trees.
- Ensure the safe operation of machinery while adhering to all safety protocols.
- Conduct routine maintenance checks on equipment to ensure optimal performance.
- Collaborate with team members to complete projects efficiently and effectively.
- Maintain a clean and organized work environment at all times.

### **Physical Requirements**

- Able to safely operate heavy equipment in dusty conditions, snow and rain
- Strength to repetitively lift up to 50 pounds
- Experience in heavy equipment operation is required.
- Ability to perform heavy lifting and physically demanding tasks consistently.
- Able to climb in and out of machinery multiple times per day
- Willingness to work long hours outdoors in various weather conditions.

### **Qualifications**

- High School diploma or equivalent
- Must hold a valid driver's license
- Excellent listener and verbal communicator
- Knowledge of tree cutting and delimiting is a plus.
- Strong mechanical knowledge to troubleshoot equipment issues as they arise.

Pay based on experience
